
ENVIRONMENTAL POLICY

Telluric Land Remediation Ltd is a contracting company specialising in providing solutions for the remediation of contaminated land and groundwater.

We work closely with the client, consultant and regulatory authorities to design and implement sustainable, cost effective, remedial solutions in response to specific needs and site conditions.

The management and all who work at Telluric Land Remediation Ltd are committed to the care of the environment and the prevention of pollution.

The organisation ensures that all its activities are carried out in conformance with the relevant environmental legislation and other requirements relating to the environment which apply to Telluric Land Remediation Ltd.

Telluric Land Remediation Ltd seeks to minimise waste arisings, promote recycling, reduce energy consumption, reduce harmful emissions and, where possible, to work with suppliers who themselves have sound environmental policies.

An essential feature of the environmental management system is a commitment to improving environmental performance. This is achieved by setting annual environmental improvement objectives and targets which are regularly monitored and reviewed. The objectives and targets are publicised throughout the organisation and all staff are committed to their achievement.

In order to ensure the achievement of the above commitments, the organisation has implemented an environmental management system which satisfies the requirements of BS EN ISO 14001 : 2004.

This Policy and the obligations and responsibilities required by the environmental management system have been communicated to all employees and persons working on behalf of the organisation. The Policy is available to the public on request.
